Qualifications and Technical Skills

Software: Java, JavaScript, C#, Git, HTML/CSS, XML, JSON, Docker, Bash

Experience with: Xcode, Android Studio, IntelliJ, Visual Studio and Microsoft XNA, Unity 3D, Maya, GitHub, Perforce, Jenkins

Currently Learning: Swift, Python, C++, Angular

Education and Training

Rochester Institute of Technology (2014 – Present)

- Bachelor of Science** in *Game Design and Development* with a **Minor** in *Mobile Development* and an **Immersion** in *Digital Literature*
- Expected Graduation: *May 2018* - RIT Presidential Scholarship - Dean's List: Spring 2016, Spring 2017
- Member of **Women in Computing & Computer Science House** (Student organizations focused on technical projects)

Rutgers University Douglass Science Institute for Women (2009 – 2013)

- Summer camp for women interested in STEM fields
- Engineering and problem solving projects
- Examples: engineering bridges/boats, problem solving puzzles, experimenting with submarine drones

Work Experience

Apple – Software Engineer (May 2017 – August 2017)

- Software Engineering Internship: iOS Power and Performance
- Automation Engineering

Intuit – Software Engineer (June 2016 – December 2016)

- Software Engineering Co-Op: Quick Books Online Quality Engineering Team
- Worked on implementing tools to understand the resiliency patterns for Quick Books services which were wrapped in Hystrix
- Integrated a “destructive proxy” that introduced artificial latency into several web dependencies which allowed engineers to expose and resolve performance issues
- Developed a Docker platform with existing CI pipelines to scale builds, deployments and increase developer productivity

FriendlyU – Android Developer (2015 – 2017)

- A startup that connects high school students to college students to help them with their choice of university
- Lead developer focused on maintaining the full functionality, look and feel of the Android application
- Created with Android Studio in Java and XML and interacts with REST
- Partook in company meetings that involved technical and business oriented discussions

iCanCode School – Coding Instructor (2015-Present)

- Teach coding concepts to children grades 1-12
- Organize schedules and curriculums
- Communicate with parents
- Facilitate and organize local youth hackathons

Recent Projects

Death by QR for iOS (2016)

- An iOS app coded in Swift using Xcode
- Gameplay is that of Assassin with QR codes and points for scanning and implements an Apple Watch feature
- Worked on front end and server connectivity

CSH Harold for Android (2014)

- An Android application that lets the user select which song plays next on our servers
- XML files promote the Computer Science house look and feel
- Utilizes Retrofit to connect to a REST API

Accomplishments

Women in Computing: Committee Head/Lead organizer for WiCHacks 2018 (All women's hackathon at RIT)

WiCHacks 2016: Winner: Best Women & Gender Hack, Best UI Design **WiCHacks 2017:** Winner: Best hack against harassment, Most Technical

codeRIT: Logistics Director for BrickHack (RIT's hackathon club): **(2015-2017):** Avid Hackathon attendee and organizer

BrickHack 2015: Winner: Best use of Spotify API **Bitcamp 2016:** Winner: Sparkpost API, Best Domain Name

Key Club International: President (Volunteering and community service organization) at East Brunswick HS

Stock Market Competition: Winner in 2013 PNC and SIFMA's 2014 Seasonal Statewide Competition

RIT Pep Band: Percussion member

Computer Science House: Volleyball team member
